

LAUNDRY > IRONER

IRONER UDC 25/140

Code 2023.120

Hard-chromed chest, guaranteed 3 years against corrosion. The best possible choice for industrial ironing: it ensures an excellent resistance to friction and keeps the temperature when humid linen are introduced.

Electro-mechanical control, simple to use and easy to repair with local parts. Electronic temperature control with two reading points.

Automatic heating shut-off in case of localized overheating

Aluminium feeding table: the purportedly introduction profile ensures a smooth introduction. The aluminium surface can be easily cleaned and hygienized.

Smart foot pedal for comfortable work: just a light pressure over the pedal starts or stops the roller rotation.

Maximum safety.

Simple design.

TECHNICAL SPECIFICATIONS

Characteristic	Unit	Value	
Roll diameter	mm		300
Roller length	mm	1600	
Ironing Capacity	Kg/h		35kg recom. moiture (25%)
Speed	m/min	2,7-4,3	
Heating			
Electric	kW	11,4	
Fan motor	kW	0,18	
Electrical Consumption	kW/h	-
